## NOTICE OF PRIVACY PRACTICES FOR PROTECTED HEALTH INFORMATION

# "THIS NOTICE DESCRIBES HOW MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION. PLEASE REVIEW IT CAREFULLY."

#### (Effective August 30, 2013)

Central Alabama Radiation Oncology, LLC ("Provider") is dedicated to protecting your health information. Provider is required by law to maintain the privacy of protected health information, to provide you adequate notice of your rights and our legal duties and privacy practices with respect to protected health information and to notify affected individuals following a breach of unsecured protected health information. 45 CFR § 164.520. "Protected Health Information" is defined at 45 CFR § 164.501 and includes past, present and future information created or received by Provider. It also includes demographic information that may identify you and that relates to your past, present or future medical condition (physical or mental), the providing of health care to you, or payment for the health care treatment. We will use or disclose Protected Health Information in a manner that is consistent with this notice.

#### WHAT IS THIS NOTICE?

Provider maintains a record (paper/electronic file) of the information we receive and collect about you and of the care we provide to you. This record includes, without limitation, physicians' orders, assessments, medication lists, clinical progress notes and billing information. This Notice of Privacy Practices describes how we may use and disclose your Protected Health Information to carry out treatment, payment or health care operations and for other purposes that are permitted or required by law. It also describes your rights regarding your Protected Health Information.

As required by law, Provider maintains policies and procedures about our work practices, including how we coordinate care and services provided to our patients. These policies and procedures include how we create, receive, access, transmit, maintain and protect the confidentiality of all health information in our workforce and with contracted business associates and/or subcontractors; security of Provider's building and electronic files; and how we educated-staff on privacy of patient information.

#### PERMITTED AND REQUIRED USES AND DISCLOSURES.

As our patient, information about you must be used and disclosed to other parties for purposes of **treatment**, **payment and health care operations**. Examples of information that must be disclosed:

- 1. **Treatment:** Providing, coordinating or managing health care and related services, consultation between health care providers relating to a patient or referral of a patient for health care from one provider to another. For example, we may need to give information to doctors, nurses, technicians, medical students or other personnel who are involved in taking care of you both in and outside of Provider's office.
- 2. **Payment:** Billing and collecting for services provided, determining plan eligibility and coverage, utilization review (UR), precertification, and medical necessity review. For example, we may need to give information to your health plan about treatment you received so that your health plan will pay us or reimburse you for the treatment. We may also tell your health plan about a treatment you are going to receive in order to obtain prior approval or to determine whether your plan will cover the treatment.
- 3. Health Care Operations: General agency administrative and business functions, quality assurance/improvement activities; medical review; auditing functions; developing clinical guidelines; determining the competence or qualifications of health care professionals; evaluating agency performance; conducting training programs with students or new employees; licensing, survey, certification, accreditation and credentialing activities; internal auditing; and certain fundraising activities, if applicable, and with your authorization, marketing activities. For example, we may disclose medical information to review our treatment and services and to evaluate the performance of our staff in caring for you. We also may disclose information to doctors, nurses, technicians, medical students, and other personnel for review and learning purposes. The medical information we have may be combined with medical information from other sources in order to compare how we are doing and see where we can make improvements in the care and services we offer. We may remove information that identifies you from this set of medical information so that others may use it to study health care and health care delivery without learning who the specific patients are.
